

MICRONEEDLING

Microneedling is an increasingly popular. Clinically proven form of collagen induction therapy and can be effective in a wide range of skin conditions. The procedure is completely safe and works by stimulating the body's natural regeneration and repair mechanisms. It works by penetrating the dermis or mid dermis to enhance blood flow and encourage the production of new collagen cells, Thus enhancing skin tone, texture plumpness and radiance

Full Face, 60 mins - £260
