HydraFacial Deluxe

Face, 80 mins - £160 Body, 80mins - £210

Includes all of the Basic and Prescriptive HydraFacial steps and in addition:

Tailored Booster serum, either:

Bespoke Booster

Skin Bespoke Booster can treat redness and sensitivity by detoxifying the skin and replenishing hydration to support a healthy skin barrier function. It is also able to minimize inflammation and diminish the appearance of skin redness. Meanwhile, extract works to control sebum production and minimize texturizing pores.

Brightening Booster

Skin Brightening Booster is specifically formulated for those who exhibit an uneven skin tone and signs of hyperpigmentation. As well as restoring hydration, this booster can reduce the appearance of brown spots and prevent new pigmentation from forming. Using a skin brightening complex to block the production of pigmentation, the Brightening Booster will help you achieve a more even complexion. Plus, glycerine will restore and replenish.
